## Aged Care Reforms

A break-down of the key measures and funding behind the aged care reforms was announced by the Australian Government in July 2019.

- The schedule lists the daily rates of subsidies and supplements for government-subsidised aged care.
- It includes rates for home care, residential aged care and transition care and short-term restorative care (STRC).
- You can download a copy from the health.gov.au.
- Source: Australian Government Department of Health (2020)

These beliefs and attitudes are restricting to those who believe them and to the people it concerns. These attitudes don't consider the uniqueness of the individual.

To the right, you will see some examples of common stereotypes or myths about elderly people.

- Old people don't have sex
- Most old people are sick
- Old people are set in their ways
- Old people are a burden on society
- Old people have nothing to offer
- All old people become senile
- All old people are the same
- Most old people like to be cared for
- Old people prefer to be with people the same age
